Summary | Week 2

<u>Scrum Master for next week?</u>
- Darrington Henderson

<u>List at least 5 things you did well and will continue doing?</u>
1. Communicating & Meeting with the Product Owner and my Mentor
2. Working together & Collaborating with others
3. Finishing Tasks
4. Finding Data
5. Planning

<u>List at least 3 things you did poorly and how you will mitigate them next sprint?</u>
1. Finding my initial Data Sets
2. Finishing my Code review
3. Solving for the Analysis (Canonical Correlation)

<u>List shout-outs to anyone for excelling in any way?</u>
- Myself for ensuring that I stay ontop of all my tasks

<u>What did you learn this week?</u>
- What I learned as a Team this week is that we'll need to learn how to do Canonical Correlation to complete our Analysis with our Final Project

<u>What did you learn as an individual this week?</u>
- What I learned as an Individual this week is that I can work on the unbeaten path by researching and finding solutions to problems that haven't been solved many times before
